MISSED-CODE DECODER

Your Airman Knowledge Test Report lists an FAA code for every topic you missed (Remote Pilot ACS). The practice-exam answers in Chapter 23 print the same codes. Find each code below, reread that page, then redo the chapter's checkpoint quiz. Codes are grouped by task: **UA.I.B.K14a** is under UA.I.B, row K14a.

UA.I.A Regulations • General

K1	When Part 107 applies to a drone flight	10
K2	Part 107 definitions: drone, pilot, observer	12
K3	Falsifying or altering a certificate or record	14
K4	Reporting a drone accident to the FAA	68
K5	FAA inspection and showing your documents	14, 57
K6	Drones that qualify for more than one category	58
K7	How long records must be kept	70, 71
K8	Older drones: category labels, Remote ID	56, 62

UA.I.B Regulations • Operating rules

K1	Registering your drone	14
K2	Keeping the drone in a safe condition to fly	24
K3	Medical conditions that affect safe flying	24
K4	Remote pilot in command: duties and authority	24, 25
K4a	Letting someone else fly the controls	24, 18
K5	Breaking a rule in an in-flight emergency	24, 68
K6	Hazardous operations	26
K6a	Careless or reckless flying	26
K6b	Dropping an object from the drone	26
K7	Flying from a moving vehicle or aircraft	26
K8	Alcohol and drugs: the flying ban	26
K9	Daylight operations (no lights needed)	30
K10	Keeping the drone in sight (line of sight)	28, 29
K11	Rules when you use a visual observer	28
K12	Never flying more than one drone at once	28
K13	No carrying hazardous materials	38
K14	Right of way and staying clear of aircraft	38
K14a	See and avoid aircraft and other hazards	38, 116
K15	Flying over people (see Task E)	50
K16	Airspace that needs ATC permission first	44, 78, 79

K17	Flying in the vicinity of airports	44, 116
K18	Prohibited and restricted areas	46, 80
K19	NOTAM flight restrictions (TFRs)	46
K20	Preflight checks before every flight	40, 159
K21	Operating limits for small drones	34
K21a	Maximum groundspeed (87 knots)	34
K21b	Maximum altitude (400 feet)	34, 86
K21c	Minimum visibility (3 statute miles)	36
K21d	Cloud clearance (500 below, 2,000 sideways)	36
K22	Getting a remote pilot certificate	18, 19
K23	Flying a programmed (automated) route	28
K24	Civil twilight flying	30
K25	Night flying rules	30
K26	Carrying property for pay	38, 39
K27	No transponder on your drone	38
K28	No ADS-B Out in transmit mode	38

UA.I.C Regulations • Remote pilot certification with an sUAS rating

K1	Drug and alcohol offenses	20, 21
K2	Refusing a drug or alcohol test	20, 21
K3	Who is eligible for a remote pilot certificate	18, 20
K4	Staying current (24-month recency)	20

UA.I.D Regulations • Waivers

K1	Waivers: policy and how to apply	70, 71
-----------	----------------------------------	---------------

UA.I.E Regulations • Operations over people

K1	Your duties when flying over people	50, 56
K2	Flying over people at night	58
K3	Categories of flying over people	52
K3a	Category 1: drones of 0.55 lb or less	52, 54
K3b	Category 2: injury below 11 ft-lb	52, 54
K3c	Category 3: injury below 25 ft-lb	52, 54

K3d	Category 4: airworthiness-certificated drones	52, 54
K4	Choosing where to fly over people	50, 54
K5	Minimum distance from people	58
K6	Flying over moving vehicles	58
K7	Modifying a drone used over people	58, 158
K8	Closed and restricted-access sites	54
K9	Maker's operating instructions for the drone	57, 56
K10	Required components and category declaration	57, 56
K11	Optional components (cameras, payloads)	57, 56
K12	Drones you build or modify for over-people use	56
K13	Declaration of Compliance (the maker's filing)	56
K14	Maintaining a drone eligible for over people	58, 158
K15	Means of Compliance (how a drone is tested)	56
K16	Impact energy (11 and 25 foot-pounds)	52, 58
K17	Exposed spinning parts	52

UA.I.F Regulations • Remote identification (RID)

K1	Standard Remote ID	62, 64
K2	Alternative Remote ID (module or ID area)	62, 64
K3	Remote ID exception for aeronautical research	64
K4	ADS-B Out and Remote ID	64, 38
K5	Confirmation of identification (foreign drones)	64
K6	What a Remote ID message must contain	64, 65
K7	Remote ID product labeling	64

UA.II.A Airspace • Airspace classification

K1	The airspace classes: overview	74
K1a	Class B airspace	76, 84
K1b	Class C airspace	76, 84
K1c	Class D airspace	76, 84, 78
K1d	Class E airspace	78
K1e	Class G (uncontrolled) airspace	78
K2	Special-use airspace (restricted, MOA, etc.)	80
K3	Other airspace: MTRs, TFRs, TRSAs, NSAs	80, 92
K4	Air traffic control and the national airspace	74, 76

UA.II.B Airspace • Airspace operational requirements

K1	Basic weather minimums	36
-----------	------------------------	-----------

K2	ATC authorizations and their limits	44, 78
K3	Operating near airports: traffic and hazards	116, 44
K4	Potential flight hazards	116
K4a	Common causes of aircraft accidents	116
K4b	Never flying beneath unmanned balloons	116
K4c	Emergency inspection of another aircraft	118
K4d	Precipitation static	118
K4e	Lasers and reporting laser illumination	118
K4f	Avoiding smokestack and cooling-tower plumes	116
K4g	Flying near power lines and wires	116
K5	The NOTAM system and how to get NOTAMs	46, 47
K6	Equipment needed for night flight	30
K7	Towers and structures, and their lighting	88, 119
K8	Unlit hazards on the ground	116
K9	Manned aircraft lights	118
K10	Drone lighting requirements	30

UA.III.A Weather • Sources of weather

K1	Internet weather briefings and sources	162
K2	METAR: hourly airport weather reports	162, 163, 166
K3	TAF: airport weather forecasts	164, 165
K4	Weather charts	164, 168, 169
K5	ASOS and AWOS automated weather stations	162, 90

UA.III.B Weather • Effects of weather on performance

K1	Weather and drone performance	166
K1a	Density altitude	166
K1b	Wind and air currents	166
K1c	Air stability, pressure and temperature	168, 166, 167
K1d	Air masses and fronts	166
K1e	Thunderstorms and microbursts	166, 167
K1f	Tornadoes	168, 167
K1g	Icing	168, 169, 167
K1h	Hail	168, 167
K1i	Fog	166, 168
K1j	Ceiling and visibility	162, 163
K1k	Lightning	168, 167

UA.IV.A Loading · Loading and performance

K1	Loading and performance	172
K1a	Effects of loading changes (load factor)	172, 173
K1b	Balance, stability and center of gravity	172
K2	Using the maker's performance data	172

UA.V.A Operations · Radio communications procedures

K1	Airports with and without a control tower	126, 132, 90
K2	CTAF: the self-announce frequency	126, 127, 90
K3	Self-announcing position and intentions	127
K4	UNICOM radio stations	126
K5	ATIS recorded airport information	126
K6	Aircraft call signs and registration numbers	128
K7	The phonetic alphabet	129
K8	Radio phrases: altitudes, headings, speed, time	128

UA.V.B Operations · Airport operations

K1	Airport types: towered, heliport, seaplane	132, 90
K2	Control towers and monitoring ATC radio	132, 126, 136
K3	Runway markings and signs	132, 136
K4	Traffic patterns used by manned aircraft	134, 116, 122
K5	Secure airport areas (SIDA)	136
K6	Sources of airport data	90, 122
K6a	Airport data on sectional charts	90
K6b	Airport data in the Chart Supplement	122, 123, 90
K7	Bird and wildlife hazards and strike reports	136
K8	Airport and seaplane base lighting	136, 137, 90

UA.V.C Operations · Emergency procedures

K1	Emergency planning and communication	140, 141, 28
K2	Lithium battery hazards	142
K2a	Carrying and handling lithium batteries	142
K2b	Charging lithium batteries safely	142
K2c	Using lithium batteries safely	142
K2d	Lithium battery fires	142, 143
K3	Lost control link and fly-aways	140, 141
K4	Losing GPS signal in flight	140

K5	Radio frequencies and their limits	140
K6	Procedures for flying over people	54, 56
K7	Procedures for night flights	30, 142

UA.V.D Operations · Aeronautical decision-making

K1	Aeronautical decision-making (ADM)	148
K1a	Effective team communication	150
K1b	Task management	150
K2	Crew resource management (CRM)	150
K3	Situational awareness	150
K4	The five hazardous attitudes	146
K5	Hazard identification and risk assessment	150, 151

UA.V.E Operations · Physiology

K1	Dehydration and heatstroke	154
K2	Alcohol and drug effects on a pilot	155, 154
K3	Prescription and over-the-counter medicine	155, 154
K4	Hyperventilation	154
K5	Stress and fatigue	154
K6	Factors affecting vision	156
K7	Fitness for flight (IMSAFE)	154, 148
K8	Night vision and night flying physiology	156
K9	Night illusions	156

UA.V.F Operations · Maintenance and inspection procedures

K1	Basic drone maintenance	158
K2	Preflight inspection	159, 158
K3	Preventing mechanical failures	158, 159
K4	Maintenance record keeping	158
K5	Who may maintain a drone	158
K6	Preflight inspection for night flights	156, 159
K7	Maker's Declaration for Category 2 and 3	56, 158
